Our client are fully satisfied with the service we offer and our trouble free machines installed in plant.

■ BLENDER BIN

It is used for handling, storing, transporting and mixing pharmaceutical powder and granules in various process, Mainly used in pillar type bin blender.

Salient Feature :

- All GMP Model.
- Contact Part: SS316/SS316L and Non-contact part: SS304.
- Manufacturing Capacity: 1 Litre to 3000 Litre.
- Provided by butterfly valve for discharge.

IN PROCESS BATCH CONTAINER (IBC)

It is used for handling, storing, transporting and mixing pharmaceutical powder and granules in various process.

Salient Feature :

- All GMP Model.
- Contact Part: SS316/SS316L and Non-contact part: SS304.
- Manufacturing Capacity: 1 Litre to 3000 Litre.
- Provided by butterfly valve for discharge.

■ IPC BIN

It is used for handling, storing, transporting and pharmaceutical powder and granules in various process.

Salient Feature :

- All GMP Model.
- Contact Part: SS316/SS316L and Non-contact part: SS304.
- Manufacturing Capacity: 25 Litre to 600 Litre.
- Provided by butterfly valve for discharge.

■ Lifting and positioning device

It is used for transferring the material dust-free and without human intervention in pharmaceutical industries for Loading powder into RMG bowl, hopper of tablet press, Loading the tablet into the hopper of blister pack & Coating Machine and online sifting and milling. It's the desirable transferring equipment in the pharmaceutical industry for the solid dosage sector.

Salient Feature :

- Sleek design.
- Capacity : 25Kg to 500Kg.
- Contact Part: SS316/SS304
- 360 degree Swiveling movement of lifting arm.
- Loading height designed as per end user requirement and slab height.
- Hydraulic power pack system for lifting.

TANK

STORAGE TANK

PROCESS TANK WITH STIRRER

- Tank find extensive application in Chemical, Pharmaceutical, Food processing industries and Water treatment system.
- Manufacturing cap : 50Ltr to 3000Ltr.
- MOC: SS316/SS316L/SS304.

JACKETED TANK

CONTAINER

- It is cylindrical shape and have opening on one end with loose lid. It mainly used to handle material that exist in granules or powder form
- MOC: SS316/SS316L/SS304
